| 2018/06/04 06:29:58 KC1JHH-ND > MNWIS-FUSION : k5tar this is kc1jhh dennis I am connected | | | | | | | | | | |
| 2018/06/04 20:03:18 K7LW-RPT > MNWIS-FUSION : I spoke with a Yaesu rep this past Saturday. What he told me was the new WiresX software is due to be released sometime in July. By not using a HRI-200 you will be "just" node, no hosting of room. | | | | | | | | | | |
| 2018/06/04 20:04:34 K7LW-RPT > MNWIS-FUSION : I also asked if there were plans to put WiresX on another platform such as LINUX, iOS etc. The answer was none at this time, and probably not in the imediate future. | | | | | | | | | | |
| 2018/06/04 20:05:52 K7LW-RPT > MNWIS-FUSION : Since Android is a LINUX based OS, and Iphones are iOS (Apple) your only choice for mobile with the new WiresX software anyway, is a Windows based device. Hope that helps? | | | | | | | | | | |
| 2018/06/04 20:09:40 K9EQ-RPT > MNWIS-FUSION : WiRES-X needs to run under x86 - so that leaves out Windows mobile (ARM). Unfortunately WiRES-X doesn't run under WINE. | | | | | | | | | | |
| 2018/06/04 20:13:44 K7LW-RPT > MNWIS-FUSION : Yep, to bad, it would be nice to have the stability of being able to run WiresX in a more stable,LINUX environment. I did offer up to be named as the LINUX whine'er if he needed to ref one. | | | | | | | | | | |
| 2018/06/04 20:15:43 W4IOD-RPT > MNWIS-FUSION : Thank you de W4IOD k | | | | | | | | | | |
| 2018/06/04 20:16:26 K7LW-RPT > MNWIS-FUSION : No worries, glad to help. 73 | | | | | | | | | | |
| 2018/06/04 20:20:50 N1JUX-ND > MNWIS-FUSION : for the ham with an ftm-100 vs squelch. im wondering if his radio was in AMS mode with an open squelch. tthe radio would not xmitt untill the squelch closed. 73 N1JUX | | | | | | | | | | |
